ACHIEVING HAPPINESS OF LIFE

Do you like butterfly?

How to catch butterfly with ease? You can use net. But this is a hard way and ineffective. The more you chase them, the more they got away.

The simple way is to do the following:

1. Make a flower garden. The more beautiful and lots of flower in your garden, the more butterfly will come.
2. When there are many butterflies in your garden, what then will you do? You don't need to chase them. Just stand in the middle of the garden. Stand still in quiet, enjoy the beauty, they will perch on your shoulder. Happiness is like butterfly. The more you chase it, the more it gets far away. Create beautiful garden in your life, then happiness will come to you. When your life is full with beautiful flowers like flower of smile, flower of forgiveness, flower of accepting and sincerity and so on so forth...then happiness is all yours.

Calm, silent and be grateful, so the butterfly will sit on your shoulder. Often we don't feel happiness, maybe because we never stay in silence and grateful for all His blessings.

Be calm and be grateful for His blessings in your life. Happiness is yours then.

Hope to be useful.

Keep the spirit
